This is a screenshot of all the emails that I have sent to various people for different stories throughout the cycle. I believe that I have been a lot better at writing and reporting from when I first started the semester, as I have been incorporating more sources. At first, one of my stories was cut due to the lack of sources that it had, but now I am able to get a lot of different sources for my stories. These make my writing stronger as I am able to use multiple perspectives to write a more informed article on the situation that I am reporting on.
